

## RENTAL MACHINES

### Pipe end preparation machines

| Type                         | Range (mm)                                                        | Motor (*)  | Weight  |  |
|------------------------------|-------------------------------------------------------------------|------------|---------|--|
| TU-2                         | 18 till 46 mm I.D.                                                | E or P     | 4,5 Kg  |  |
| TU-3                         | 27 till 106 mm I.D.                                               | E or P     | 6,5 Kg  |  |
| TU-4                         | 40 till 162 mm I.D.                                               | P<br>Angle | 9 Kg    |  |
| TU-5                         | 52 till 215 mm I.D.                                               | E or P     | 18 Kg   |  |
| TU-6                         | 100 till 400 I.D.                                                 | E or P     | 85 Kg   |  |
| TU-12                        | 120 till 605 I.D.                                                 | P          | 105 Kg  |  |
| TU-D                         | 6 till 61 mm O.D.                                                 | E or P     | 8 Kg    |  |
| AM-6                         | 40 till 166 mm I.D.                                               | E or P     | 10 Kg   |  |
| AM-12                        | 100 till 330 mm I.D.                                              | E or P     | 24 Kg   |  |
| AM-18                        | 100 till 460 mm I.D.                                              | P          | 26 Kg   |  |
| RPG 1.5<br>Facing<br>Machine | 6 till 38,1 mm O.D.<br>Clamping collets<br>separate rental        | E          | 4,7 Kg  |  |
| RPG 3.0<br>Facing<br>Machine | 6 till 77 mm O.D.<br>Clamping collets<br>separate rental          | E          | 7,8 Kg  |  |
| RPG 4.5<br>Facing<br>Machine | 12,7 till 114,3 mm<br>O.D.<br>Clamping collets<br>separate rental | E          | 10,5 Kg |  |
| Air unit 1/2"                |                                                                   | P          | 11 Kg   |  |
| Air unit 3/4"                |                                                                   | P          | 14 Kg   |  |

(\*) Motor P is a pneumatic motor for 6 Bar (compressed air volume differs per machine).  
Motor E is a electronic motor 220 Volt.

Machines for bigger diameters on request.

# RENTAL MACHINES

## Stationary pipe end preparation machines

| Type   | Range (mm)          | Motor (¹) | Weight  |  |
|--------|---------------------|-----------|---------|--|
| SNE-76 | 8 till 76 mm O.D.   | E         | 120 Kg  |  |
| PBM-6  | 46 till 180 mm O.D. | E         | 1400 Kg |  |
| PBM-16 | 60 till 430 mm O.D. | E         | 2400 Kg |  |

(¹) Motor E is a electronic motor 400 Volt.

## Polishmachine

| Type     | Feed    | Motor     | Weight |  |
|----------|---------|-----------|--------|--|
| TPP-509S | By hand | Pneumatic | 3,5 Kg |  |

## Flame cutting machines

| Type           | Range (mm)                 | Motor (¹)                   | Weight |  |
|----------------|----------------------------|-----------------------------|--------|--|
| Picle-1        | Upward of 114 mm           | By Hand                     | 15 Kg  |  |
| Band bevel     | Upward of 250 mm           | E                           | 45 Kg  |  |
| Band - crawler | Upward of 168 mm           | By Hand<br>Or<br>Electronic | 12 Kg  |  |
| RSG-2          | 8" - 24"<br>215 - 620 mm   | E                           | 80 Kg  |  |
| RSG-3          | 24" - 40"<br>610 - 1030 mm | E                           | 120 Kg |  |

(¹) Motor E is a electronic motor 220 Volt with remote control.
